

The background of the slide is a photograph of the IIT Madras building, a large, modern structure with a prominent tower on the right side. The building is illuminated with warm, golden light, suggesting a sunset or sunrise. The sky is a deep blue with some light clouds. The text is overlaid on the top half of the image.

# The 14<sup>th</sup> Asian Micro-Gravity Symposium

## 1 - 6 December 2024, IIT Madras, Chennai, India

The Asian Microgravity Symposium (AMS), originally established in 1993 has over the years gained popularity amongst researchers and technologists in academia and industry as a platform to share the latest developments in the microgravity science and technology. After 13 successful symposia with 6 in China, 5 in Japan and 2 in South Korea, the 14<sup>th</sup> edition of AMS will be held in India for the first-time during 1-6 December of 2024. The Indian Micro-gravity society, ISOSU (Indian Society for Outer Space Utilisation) invites researchers to showcase their cutting-edge research and developments at this prestigious event. The first announcement will be available in January 2024
